PROGRAM**

What We Do

Each month, children are introduced to and explore a variety of engaging topics through small group activities, one-on-one learning opportunities, hands-on games, and interactive experiences. Throughout the year, we will focus on developing important early learning skills such as:

- Beginning Math Skills
- Pre-Reading Skills
- Pre-Writing Skills
- Social Studies
- Science Exploration

Artist of the Month

Each month, children will also be introduced to a new artist and art style through stories, pictures, discussions, and hands-on art projects designed to inspire creativity and self-expression.

Lunch

Each child needs to bring their own lunch and drink. This time together helps students adjust to eating as a group away from home. If possible please refrain from sending in peanut butter or other nut products.

Registering

To register your child, please email or call the preschool office. Your child may begin PEEPS at any point until January. At anytime you can increase or decrease the amount if days your child attends. Please let the office know when you are adding days so that the class size stays within ratio.

Tuition Rates

(base tuition is listed after the class name, options reflect total additional costs)

Monday, Wednesday, Friday 4s (\$275)

Option 1: add M or W (\$325)
